## Eeshay Astrology Colour Therapy

(Treat yourself with a sketch pen)

**Eeshay Astrology Colour Therapy** discovered by Eeshay Sanjay Dulhani, Jabalpur, M.P., INDIA.

Dear Friends,

There are different techniques like Allopathy, Homeopathy, Ayurved, Reiki, Accupressure etc. used for treatment. In Allopathy, treatment of diseases is done using foreign substances. Homeopathy treats a disease with heavily diluted preparations. Ayurveda treats Vat-Pitta-Kaf Dosh and Reiki, Acupressure, Astrology and Colour therapy, basically treats the energy (Bio – electricity) imbalance in human body.

We believe that each and every particle in this universe is composed of five basic elements namely:

**Wind** (Vaayu), **Fire** (Agni), **Earth** (Prithvi), **Space** (Aakash) and **Water**

(Jal).

All these elements have their different energies. We believe that human body remains fit till there is a balance of these energies in the body. If incase, there is an imbalance exists between these energies then the functioning of the human body is affected .Generally, the different imbalances are known by different names (diseases).

Every colour represents a distinct element and its energy. Eeshay astrology colour therapy uses different colours to regain the balance between the energies of five elements

Eeshay Astrology colour therapy uses 14 distinct points on human palm. All these points are found on both palms but better results are seen using left palm. Colours should be applied in the clockwise direction on the prescribed points. And it is recommended that there should not be any contact with any liquid for at least 4 hours, after applying the colour on the prescribed points.

Given below are the remedies for some of the general diseases. Please refer to the chart

No.	Diseases	Point Code	Colour
1	Fever	Xx, 3b, 3c	Blue
2	Food Poisoning / vomiting	1c, 2c	Black
